

# Available Respite Care Funding for Tribal Nations of Wisconsin

Are there members in your community who are **family caregivers**? Are there spouses/partners, parents, children, grandparents, grandchildren, siblings, cousins, aunts, uncles, or neighbors who provide care for their loved ones?

Would your organization benefit from additional Respite Care Association of Wisconsin (RCAW) funding for direct respite care?

**Join us on the upcoming call to hear how we can help you help others!**

RCAW has identified the 11 federally recognized tribes in Wisconsin as underserved populations and has secured supplemental funding for direct respite care for your communities.

Please complete this survey (**by Nov 30**) to indicate the following:

- If increased funding for direct respite care is or is not something you need (\*Note: If increased funding is not needed, it can open funding sources for those with a greater need, so please let us know!\*)
- Which date and time is best for you to join the preliminary Info Session?

Based on the majority, RCAW will schedule a virtual meeting to discuss the potential grant fund to help serve tribal members with respite care in your community!
